Introduction Introduce the topic area Give the outline of the essay		the difficulties for organizations when introducing a hybrid waterfall agile project management methodology <i>In this essay, I will outline the difficulties faced by organizations when introducing a hybrid waterfall agile project management methodology and how best to solve them.</i> <i>I will illustrate/describe ... (examples)</i> <i>I will consider ... (solutions)</i> <i>Finally, I will suggest ... (best solution)</i>
Body	Paragraph 1 Situation/problems (general)	Difficulties in using traditional waterfall methods to deliver a system which is responsive to customer requirements: 1. need to retain the high levels of control provided by waterfall 2. need to increase the amount of responsiveness in the product which is delivered 3. need to adapt systems to hybrid methodologies
	Paragraph 2 Problems (specific examples)	Sun Electronics' system – 25% dissatisfaction rates Previous PRINCE2 project methodology delivered a system which was not responsive
	Paragraph 3 Solutions	Adapting new processes 1. creating new role in the project team 2. providing appropriate levels of training 3. adapting security aspects to overcome recognized deficiencies in agile methods
	Paragraph 4 Evaluations of solutions	Evidence suggests cross-training on hybrid methods can have benefits. However, it may not be enough. Hiring staff who are experienced in waterfall agile hybrid methods may be the best way to introduce the methodology.
Conclusion		<i>From the evidence, we can suggest/conclude ...</i> <i>Firstly, ...</i> <i>Secondly, ...</i> <i>Thirdly, ...</i>
