Benefits of New Computer Developments

Dear participant,

In order for new computer developments to have the maximum benefit, it is important that as many individuals as possible use them. We are currently conducting a study to help us find out whether there are differences in the ways in which younger and older adults view the benefits of new developments in computing. Completing this questionnaire will help us understand how we can best remove any barriers to using new technology which may exist for older adults.

Please indicate your answer by circling your choice.

Gender: Male Female Other (please specify): _____

Age: 18–25 26–45 46–65 65+
